

## **IQAC**

The institution does have an Internal Quality Assurance Cell in place. IQAC was established on 17<sup>th</sup> June 2013.

This cell is trying its best for the advancement in the field of teaching and learning. The cell also is giving importance to research and development. The IQAC encourages faculty members and staff to orient and refresh themselves by arranging/attending seminars/conferences/workshops. The IQAC expects the faculty members to follow the academic calendar outlined at the beginning of the session. If there is any divergence from the plan outlined in the academic calendar like syllabus incomplete etc., then the faculty members are advised to take extra classes and make it up so that the students are not deprived. The IQAC also has setup a research committee that record the developments of research if any in the college and report this to the IQAC.

There is an integrated framework for quality assurance. This is a responsible committee to monitor the quality assurance at every step. All the academic and administrative activities are carried out as per the schedule mentioned on the annual calendar. Eminent researchers are invited for presentations, guest lectures and workshops. Our college regularly organizes a training session for the effective implementation of the quality improvement measures. The IQAC conducts regular internal workshops to educate faculties and staff for the internal quality requirements as per the quality policy.
